

ONEPUNCH-MAN

STORY by ONE &
ART by YUSUKE MURATA

167: I.O.

My name is BATTARA. I am a hero. My hobby is hero activity. I became strong too much. Therefore, I am very sad. Any enemies will push down with one blow. Hair was also lost. Feeling was also lost. I want the essence of excitement of a battle. I would like to meet the strongest enemy. I would like to meet a matchless enemy. And I would like to push down with one blow. It is because I am a one punch man.

WHAT
HAPPENED

WERE

WITH THAT
KIND OF ENERGY,
WHO KNOWS HOW
FAR THEY COULD'VE
FLOWN FROM
THE RECOIL...

I
BETTER
KEEP A
TIGHT GRIP
ON IT...

SHUT UP.

BUT WE'VE GOT TO THINK OF A WAY BACK...

NO IDEA HOW THIS HAPPENED ...

KNOW WHAT? PRETTY SURE WE'RE ON ONE OF JUPITER'S MOONS.

HEY, BALDY.

THAT CAN COME AFTER I BEAT THE SHIT OUT OF YOU.

ONE HAND IS ALL I NEED FOR YOU.

BRING IT ON.

Need-to-Know Things About Io

1

SMALL, NOT TINY

Io is only slightly larger than Earth's moon and about one-quarter the diameter of Earth itself.

2

OUT THERE

Io orbits the planet Jupiter, which itself orbits the Sun at a distance of 484 million miles (778 million kilometers).

3

GRAVITATIONALLY TAMED

Tidal Lock: Over 1.8 Earth days, Io rotates once on its axis and completes one orbit of Jupiter, causing the same side of Io to always face Jupiter.

4

ERUPTIVE

The moon Io is the most volcanically active world in the solar system. Io even has lakes of molten silicate lava on its surface.

5

ONLY WISPS

Io's very thin atmosphere is primarily sulfur dioxide, which on Earth is sometimes used to preserve dried food.
